

# Voice Blueprint & Playbook

Your voice is your brand. We capture it, structure it, and make every piece of content sound like you.

One-time investment

## The Problem

- Most AI content sounds generic because it has no idea how you talk or explain things to your customers.
- Without a structured voice profile, every email and post requires manual rewriting to sound like you.
- Competitors investing in voice-first AI will produce on-brand content faster and cheaper.

## What You Get

- ✓ **55-Question Foundation Audit**  
Deep-dive survey covering your voice, values, audience, and language preferences.
- ✓ **15-Minute Recorded Conversation**  
We capture how you actually speak --- tone and word choices a survey can't reveal.
- ✓ **Writing Sample Analysis**  
We analyze 5-10 samples of your real writing to identify your authentic patterns.
- ✓ **Personal Linguistic Analysis**  
Breakdown of your sentence structure, vocabulary, tone, and stylistic devices.
- ✓ **Brand Blueprint Document**  
Your positioning, target audience, and messaging pillars in one reference.
- ✓ **Complete Voice & Writing Guide**  
Your definitive voice reference with a master AI system prompt for any AI tool.
- ✓ **AI Integration & Testing**  
Your voice prompt tested and refined across your specific workflow tools.

**Like You, On Your Best Day, Every Single Time.**

Generic AI content is costing you credibility. Your voice is your competitive advantage --- and now you can scale it.
